

The Program Educational Objectives(PEOs) statements were modified in the year 2022.

PEO	PEO statements
PEO1	To produce a strong foundation in mathematics, basic science, and engineering that will enable them to solve real life problems through collaborative learning.
PEO2	To instill good management and communication skills, the art of self-learning and teamwork with strong adherence to ethical values.
PEO3	To foster a passion for electrical engineering for enabling the graduates to pursue post graduate programs or lifelong learning in industry / technical professions.
